AB

PROFILE

Technology-focused student with a strong interest in programming, web development, cybersecurity, networking, and software development. I enjoy learning how computer systems work, building practical projects, solving problems, and continuously improving through self-directed learning and hands-on practice.

EDUCATION

Diploma in Computer Science Polytechnic College, Daman Current student • Admission through merit • Ranked 7th in admission list	Class 10 / Board Examination Shree Machhi Mahajan English Medium School, Daman 82.17% • 86.37 percentile
--	---

TECHNICAL SKILLS

Skill	Level	What I can do
HTML & CSS	Intermediate	Responsive layouts • Styling • Animations • Web structure
JavaScript	Beginner	Variables • Conditions • Switch • Loops • Functions • Core syntax
Python	Beginner+	Syntax • Basic programming • Problem solving • Small applications

AREAS OF INTEREST

Cybersecurity • Programming • Web Development • Software Development • Networking • Game Development • AI & Emerging Technology

PROJECTS

My Portfolio	Personal portfolio website created to introduce myself and demonstrate my HTML & CSS skills. The project focuses on structured web pages, styling, responsive presentation, and a clean user experience.
Calculator	Python-based learning project built to practise programming fundamentals and basic application logic.
Snake & Ladder	Web-based learning project using HTML, CSS, and JavaScript to practise interactive interfaces and core JavaScript concepts.

CERTIFICATIONS & LEARNING

I have built my skills through free learning resources, including Caddy.tech and Cisco Networking Academy. The certificates below document completed learning milestones, especially in HTML and CSS.

01	HTML Essentials Cisco Networking Academy • Statement of Achievement • Aug 2026
02	HTML Essentials Badge Cisco Networking Academy • Verified badge
03	HTML Fundamentals Caddy • Certificate of Completion • Jan 2026
04	HTML Styling with CSS Caddy • Certificate of Completion • Jun 2026
05	HTML CSS Mastery Caddy • Certificate of Completion • Jul 2026
06	HTML Practical Frontend Caddy • Certificate of Completion • Jul 2026

Learning approach

Self-learning • Hands-on practice • Building projects • Exploring cybersecurity and networking • Continuously strengthening programming fundamentals

EXPERIENCE

Student & Self-Directed Developer

I do not yet have professional work experience. I am actively developing my technical skills through courses, personal projects, experimentation, and continuous practice. I am eager to gain practical experience and contribute effectively when given an opportunity.

STRENGTHS

- Quick learner with a strong curiosity for technology
- Enjoys understanding how systems work rather than only memorizing tools
- Comfortable learning independently from documentation and courses
- Interested in solving problems through code and practical projects
- Motivated to grow toward software development and cybersecurity
